Biblical Interpretation Skills for the 21st Century

BB203C/BB403C

This event aims to introduce students to the history, goals and general principles of biblical interpretation with attention paid to the practical application of these principles to the biblical text.

Participants will be able to:

• demonstrate a sound knowledge of general hermeneutical principles
• demonstrate a clear understanding of sound principles used in interpreting Scripture
• evaluate a broad range of approaches used in interpreting Scripture
• apply appropriate hermeneutical principles to biblical texts
• appreciate the diversity of interpretative approaches used in the interpretation of the Scriptures within the Christian tradition

FACILITATOR

Dr Leon O’Flynn (DMin, MTh, BTh) is the Associate Dean of Learning and Teaching for ACOM. Leon’s military service as a chaplain in Afghanistan and Solomon Islands supported the emotional, spiritual, and physical needs of defence force personnel as well as leading nation-building programs to build capacity in indigenous communities.
